

O5A 06W - Omnidirectional 5G Antenna

Art. Number 109602

360° antenna for 4G/5G signal reception.

Future-proof connectivity, wherever you are

Work, rest or play online reliably and quickly, wherever you're staying - TRIAX 5G antennas boost mobile broadband reception in places fibre doesn't reach.

Simply connect to your choice of mobile broadband router to receive the maximum attainable mobile network speed at each location.

The antennas are ready for the advancing 5G roll-out across Scandinavia, bringing speeds up to 100x faster than 4G. They are fully compatible with all mobile signals: use the best possible 4G LTE speeds now, with no need for future upgrades when 5G arrives.

For the ultimate in speed and reliability, our antennas are MIMO compatible.

The antenna is delivered with 2m white twin cable with connectors, which are ready for mounting directly on the 2 antenna inputs on the router.
